What’s the Best Part of My Job?

People ask me that all the time, and the answer is simple: It’s the high school kids I get to meet and write about on a regular basis.

They’re not kids, actually. They are talented young men and women, some of the best and brightest in our community. There’s no reason to worry about the future with these young people on their way to adulthood, where they’ll take their rightful place as responsible citizens. No reason to worry at all.

MetroSportsReport.com has been a labor of love for everyone involved with the website. All of us have deep roots in the community and care deeply about what happens in our schools.

I was surprised to learn that approximately 65 percent of all high school students participate in at least one sport during the year. Surprised and delighted it was so high. And it’s not that the other 35 percent are slackers. They’re in the pep band that plays at games, they’re cheerleaders, they’re members of the dance team that performs at halftime, they’re student-managers, they keep statistics, they take pictures, they write stories for the school newspaper, they are fans who sit in the stands and cheer for their favorite team.

High school sports are a common denominator for just about everyone who lives in the Cedar Rapids and Marion area. Just about everyone has a connection to one of the schools either as an alum, student, parent, grandparent, aunt, uncle, neighbor, or fan. The high schools tie us all together.

The combined population of the eight high schools (Cedar Valley Christian, Jefferson, Kennedy, Linn-Mar, Marion, Prairie, Washington, and Xavier) comes to approximately 10,000 kids and their families and friends. This means we have readers of all ages, young, old, and in-between - and they represent all the demographics you could imagine.

In 2011, the first year of our launch, we received more than 750,000 pageviews and nearly 80,000 unique visitors to our site. Month-after-month, our Google Analytics report proves to us that the popularity of MetroSportsReport.com continues to grow steadily beyond our initial hopes and imagination.

We feel we are doing important work at MetroSportsReport.com, trying to give these students some recognition for their achievements and to shine a little light on what’s happening in our schools.

Because of the success we’ve seen since the launch of MetroSportsReport.com we feel confident that our advertisers are receiving the exposure they need to build brand awareness and grow their customer base.

We’d like to invite you to become a part of MetroSportsReport.com. In our minds, it’s a win-win situation. Our advertisers and partners help us celebrate these students and their achievements.

Advertising Artwork

Shared, Static Ads
These are ads that are not animated, commonly known as banner ads. Your ad may be in a space shared by as many as four other advertisers on the Home Page and School Main Pages. The exposure of your advertisement will be based on the random draw of your ad from the pool of ads designated for that ad location and will be proportional to the number of ads sharing the space. Random rotation of your multiple ads in a single, shared ad frame is also available.

We will work with you to design your ad. Your first ad design is included in the price. Redesigns are very cost-friendly. Just ask us. You will need to supply the necessary logos and other proprietary symbols and graphics, if needed. If our graphic artist designs your ad, we will ask for your approval before we post it to the site.

If you provide the ad, we require it to be provided electronically in the “JPEG” or “GIF” file format and that the artwork adheres to the dimensions of the ad size purchased. (box, tower, leaderboard, etc.) Our graphic artist will review the ad for readability, providing feedback to you intended to improve your ad’s impact. Then, after you make any needed or desired changes, the ad will be posted to the site.

We can provide a single click-through feature for each ad, targeting the URL of your choice.

Flash Ads – These are ads that are animated using Flash programming. - The advertiser must provide these ads as single-file Flash ads in the "Shockwave Flash Object" file format. They must be of the size specified for the selected ad space. We do not compose Flash ads. If you want a click-through feature to a URL, you must have it embedded in the single-file Flash ad. Click-through links are limited to one per Flash ad.

Special Requests
If you have a special request for an advertisement that does not fit our standard models, please ask us. We will try to accommodate your request, if possible.

Other Notes
All payments are due upon receipt of invoice. Full, advance payment of an annual ad will earn the advertiser the 13th month free. Ads will be posted to the site when the ad has been composed or submitted and when the invoice is paid.

Advertisements may be removed from the site if subsequent account balances are not paid when due. Ad space is limited and is generally sold on a first-come, first-served basis. However, we may make some exceptions based on other issues and requirements.

All advertising is accepted subject to our determination that the products and/or services advertised and the ad presentation are in keeping with local community standards and MetroSportReport.com’s operating philosophy.
